It was brought to my attention that drivers most likely have outdated incident report forms and may not know what to do in case of an accident. Attached you will find an incident report from our carrier, Nonprofit Insurance Alliance Group. The form is for all types of incidents so all requested information is not necessary.

Please contact the WFW office right away to let us know. Complete as much of the form as possible and return it to Traci at the WFW office ASAP. If you cannot come to the office it can be scanned/mailed or I will pick it up from you. I will complete the additional business info needed and submit it.

Law enforcement will want insurance information.

Carrier is ANI (Alliance of Nonprofits for Insurance) Policy# 2020-25034

The below information is a general outline of how to handle an accident

### What should I do at the scene of the accident?

Being in an accident can be very stressful. Learn what steps you need to take after an accident now.

- Check to see if anyone was hurt
- Call 911, to request any needed medical assistance
- **Move your car to a safe location**, but **do not** leave the scene
- **Do not admit fault** or reveal your policy limits
- Contact the police. They'll send an officer if necessary
- **Exchange information** with those involved

### What information should you collect?

- Names, phone numbers, mailing addresses, and email addresses of the other driver(s), all vehicle occupants, and witnesses
- Location of the incident
- Photos of the scene and all vehicles involved, including tag numbers
- Insurance information from others involved: company name, policy number, and phone number

### If emergency services respond, make a note of:

- Police report number
- Phone number
- Officer name and badge number

**Did you know...**

**Our Health** hosts a farmer's market on the campus lawn throughout the summer?
